VALUE LOADER

Benefits

- Integrated cable security system reduces down time for theft and vandalism
- 24/7 access to recharge/query accounts provides uninterrupted service to users
- Patrons are granted secure access to unattended devices at your facility.
- Modular design facilitates easy upgrade from the base value loader to add dispensing and refund capability.
- The loader helps eliminate proprietary debit cards and migrate to an online, accounts-based system that automatically tracks activity at all your printers and copiers in a single database.
- No need to wait for product upgrades to arrive - with our remote access, your equipment can be updated easily and with no disruption to you.

Firmware Integration

- 5.7" TFT touch screen
- 128 bit data encryption
- set up and diagnostics utility
- Multi-Drop Bus (MDB) communications support for currency acceptor, Debit/Credit card transactions and customer refund options.
- Library interfaces, SIP2, Sirsi Dynix and many others to support fees/fines etc
- 24 bit colour display supports over 250,000 colours and 1 million finger touches
- Optional input reader devices include ABA track 1, 2 or 3 magnetic card, Mifare® (Classic, DESFire Ev1), Legic® (Prime & Advant) , EM4102, Indala, Mifare®, Prox® and iClass® from HID and a variety of barcode symbologies
