

Glocal Value extends print management dashboards

Glocal Value has today announced the availability of Intuitive for SafeQ dashboards for the Italian market.

Available through its network of partners, the Intuitive for SafeQ dashboards deliver powerful print data insights. Intuitive for SafeQ dashboards are available for both SafeQ Cloud and SafeQ 6.

The dashboards are pre-integrated meaning that users will be up and running within hours with interactive views of their print, scan and copy usage. The Intuitive for SafeQ Cloud dashboards are securely hosted in Microsoft's Azure cloud infrastructure, eliminating the need for on-premise installation or additional hardware and provide a reporting solution that can be ready immediately.

"We have already seen the value of providing enhanced data analytics to our PaperCut customers. Now we can give the same opportunity to SafeQ customers in Italy as well and they can now enjoy better visibility with data insights at their fingertips, enabling informed decision-making. This additional solution confirms our desire to increasingly strengthen our partnership with Intuitive and to help organizations have the tools they need to succeed in an increasingly data-driven world." Savio Avilia, Glocal Value President.

Intuitive CEO Roger Stocker comments *"Our new dashboards for SafeQ Cloud represent a massive leap forward, allowing SafeQ Cloud users to get rapid, seamless, and enhanced data visibility. We are delighted to be bringing this solution to the market. This fully hosted cloud solution streamlines collaboration, helps identify areas for digitisation and provides insights for efficiency improvements."*

About Intuitive

Intuitive is a global provider of Data Visualisation Tools for Application Developers and Software Resellers. Formed by a team of highly experienced entrepreneurs and software developers the aim of Intuitive BI from the outset was to create a different type of BI solution. The team recognised that for Business Intelligence to deliver, companies needed easy to use tools that could be deployed to all employees and beyond organisational boundaries to customers and suppliers.

Intuitive BI sells exclusively through its network of value-added partners. We work closely with our partners in specific application areas such as Print and Process Management so that data held within their applications can be made more valuable to customers.
